

An underwater photograph showing a large crab in the foreground and several fish swimming in the background. The scene is dimly lit, with light rays filtering through the water.

# REVISION OF THE SANTA MONICA BAY NATIONAL ESTUARY PROGRAM BAY RESTORATION PLAN

- The Governing Board, Technical Advisory Committee and Watershed Advisory Council serve as the Management Conference for the SMBNEP.
- The Governing Board serves as the Management Committee for the SMBNEP
- SMBRC and TBF as memorialized in the MOA and MOU are the principal partners in the SMBNEP. TBF is the host entity of the SMBNEP.

- As mandated by EPA regulations our Bay Restoration Plan which serves as the Comprehensive Conservation and Monitoring Plan for the SMBNEP needs to be revised.
- This revision requires that we assess and change the BRP as a result of progress made on goals, incorporation of climate change, and simply due to the passage of time.
- The BRP was updated in 2013

CCMP

- A revised CCMP should include the following:
  - new priorities, goals, objectives, and action plans,
  - new action plans that indicate:
    - 1) whether they replace or enhance former plans,
    - 2) wherever possible which entities will serve as lead implementers,
    - 3) a timeline and milestones for completion, and
    - 4) performance measures (quantitative/environmental results measures wherever possible).

# COMPONENTS OF THE CCMP REVISION

CCMP

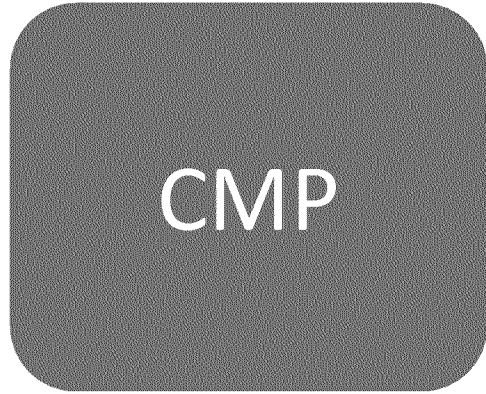

CMP

CCVA

QAPrP

Map  
Study Area

Process  
Calendar

The CMP is the  
Comprehensive Monitoring  
Plan for the SMBNEP

The Technical Advisory  
Committee, (TAC) of the  
SMBRC is engaged with  
SMBRC and TBF staff to revise  
the CMP

- Last version from 2007
- TAC has already started with review
- Focus on ecosystem response
- Will include information from CCVA

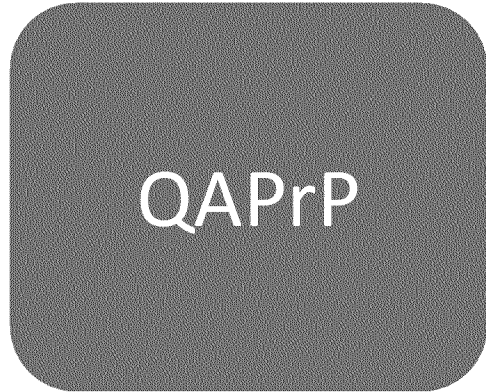

CCVA

The CCVA is the Climate Change Vulnerability Assessment

All NEP's are expected to apply the findings of their CCVA to their CCMP's no later than 2020

- SMBNEP completed phase one of the CCVA in September 2016
- Evaluated the Goals, Objectives and Milestones of the BRP against six stressors:
  - Warmer Temperatures
  - Warmer Water
  - Increasing Drought
  - Increasing Storminess
  - Sea Level Rise
  - Ocean Acidification

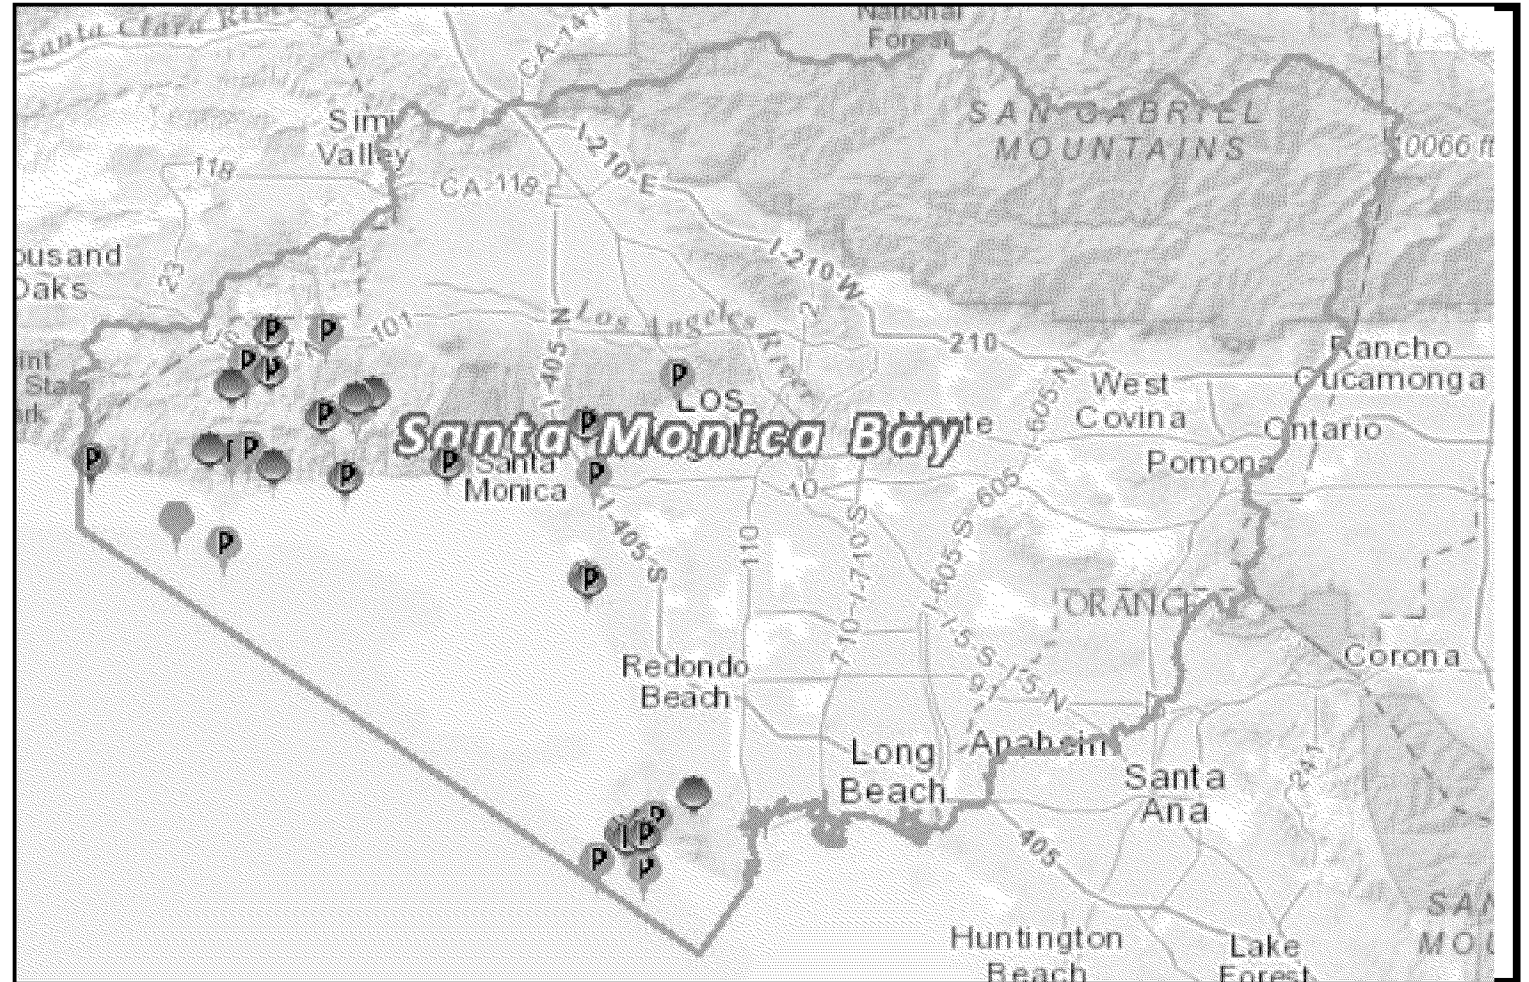

The QAPrP is the required Quality Assurance Program Plan for the SMBNEP

- Defines the necessary characteristics associated with data used to inform the CCMP, CMP, and Annual Work Plans

## Map Study Area

CCMP revision requires consideration of new information that warrants a change of study area.

# Process Calendar

CCMP

SMBRC GB Role

- Propose that we utilize Governing Board meetings in workshop format to discuss the BRP
  - August 2017 - October 2017
  - February 2018 - June 2018
- Propose that sub-committees be established to inform and ensure progress
- Expect revision format, priorities and changes be produced and reviewed within the next twelve months

## Process Calendar

### CCMP

- Propose engaging WAC through three meetings over the next twelve months

### WAC Role

- Propose use of facilitator to engage WAC and consolidate concepts for CCMP revision

# Process Calendar

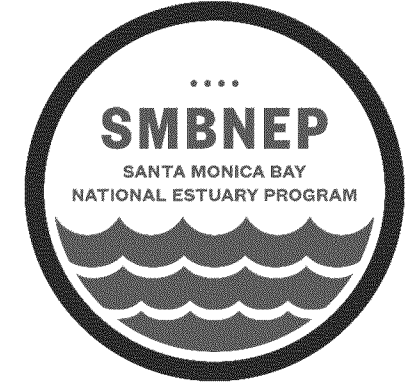

## CCMP

- Propose TAC to consider changes to CCMP in conjunction with CMP

## TAC Role

- Propose TAC report to GB on relevant concerns and developments regarding CCMP-CMP in early 2018

## Process Calendar

CCMP

- Propose TBF and SMBRC staff conduct presentations and collect suggestions from the general public and interest groups starting in fall 2017

Public Role

Outside the  
management  
conference

- Propose TBF and SMBRC staff capture and consolidate concepts for CCMP revision and report out to GB

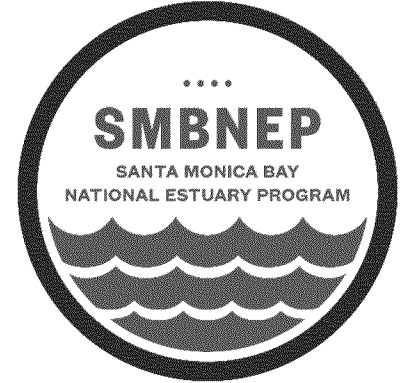

# Process Calendar

## CMP

- TAC and SMBNEP staff supported effort.
- Intended completion date end of 2017
- Brought to GB for consideration in early 2018

## Process Calendar

### CCVA

- Completed phase one in September 2016
- Staff progressing on phase two action planning
- Will present to TAC end of 2017 and to GB in concert with CMP early 2018

## Process Calendar

### QAPrP

- Last submitted a Quality Assurance Program Plan in August 2016
- Staff will revise this document accordingly and will submit it to EPA
